A Digital and Trusted Electronic Signature Platform
## with High-Level Legal Reliability

Legally Reliable Signatures for Everyone

ConsignO Cloud is a web-based digital and trusted electronic signature platform with high-level legal reliability that allows public and private sector organizations, municipalities, and governments to transition to 100% digital documentation, whether the signer is a professional practicing a regulated profession, a company executive, employee, client, partner, or citizen. Document signers do not need to subscribe or install anything on their computer. It's user-friendly, fast, and free.

Market-Leading Legal Reliability

Documents produced with ConsignO Cloud provide a high level of legal reliability by incorporating all aspects necessary to establish a document's origin and integrity.

A user-friendly platform for managing multiple levels of digital identity

**A project manager** prepares a contract for signature by an internal manager and an outside partner.
CREATION OF A SIGNATURE PROJECT

Create and monitor project progress

Manage an address book

Modify signature orders (sequential or parallel)

Define signature areas in document

Permits
Contracts
Purchase orders

(1)

(2)

A manager signs using the **CertifiO for Employees** digital signature.

An outside partner signs on a mobile device.

CERTIFIO DIGITAL SIGNATURE

Receives the signature request by email

Opens a signing session
(two-factor identification)

Signs document using a digital signature

TRUSTED ELECTRONIC SIGNATURE

Receives the signature request by email

Opens a signing session
(two-factor identification)

Can sign using a mobile device

With ConsignO Cloud, you can incorporate both the CertifiO digital signature and trusted electronic signatures in the same document. The resulting document is admissible and enforceable in court.

USER-FRIENDLY

ConsignO Cloud requires no installation or training to prepare electronic signature projects or use electronic signatures. ConsignO Cloud works in all standard web browsers.

AUDIT TRAIL

ConsignO Cloud automatically generates a digitally sealed audit trail in PDF/A-3 that incorporates the signed document to ensure the reliability of the entire signing process.

LONGEVITY

Document longevity ensures that the document can be opened, read, and authenticated for several decades by:

- Using **PDF/A**, an ISO standard for use in the archiving and long-term preservation of electronic documents (ISO 19005).

- Using **PAdES LTV** (ETSI TS 102 778), a standard enabling long-term validation of digital signatures, which makes it possible to confirm the signature's validity at the time of application regardless of the current state of the certificate (expired or revoked).

API

INTEGRATION

The platform can also be integrated into existing systems, including CRM and EDM, with an API.

SECURITY AND CONFIDENTIALITY

Documents are encrypted and stored only on servers located in Canada. Clients can also opt for in-house data location.

How Can I Create a ConsignO Cloud Account?

1. **Fill out the online form**
2. **Confirm your information using two-factor authentication**

Who is Notarius?

A leading expert in electronic signatures, digital signatures, and long-term document reliability since 1998, Notarius is the only Canadian firm that issues trusted signatures recognized by Adobe (Adobe Approved Trust List – AATL) and eIDAS (electronic IDentification Authentication and trust Services). Notarius is an environmentally responsible, certified carbon-neutral business that holds ISO 27001 and ISO 9001 certifications. In addition to our certifications, you get peace of mind from knowing your documents are admissible as evidence (not merely prima facie evidence) under Canadian law.

Our Expertise

Notarius has helped hundreds of organizations transition to digital technologies by helping professionals adopt 100% digital practices that comply with the requirements of their professional association. Thousands of professionals, executives, employees, clients, and partners use our products to sign millions of legally reliable documents every year. Notarius has a proven track record, developing solutions that meet the most stringent standards of security and confidentiality.

Environment

In addition to lowering document management costs and enhancing productivity, transitioning to digital signatures enables you to reduce paper use for a substantially smaller environmental footprint.

Notarius Products and Services

Notarius offers a full range of signature and validation solutions.
